INTRODUCTION

Quality Assurance Means No Surprises

HSN's Quality Assurance (QA) program exists to ensure the proper execution of every product we buy and sell. This manual contains specific information concerning the minimum quality standards HSN expects in the product it purchases. In addition, we expect our vendors to comply with all applicable legal requirements concerning the manufacture, sale and advertising of products. In certain instances, HSN standards may be higher than the stated legal minimums. It is the vendor's responsibility to read and understand the published guidelines that pertain to the industry. These include but are not limited to:

- [The Textile Fiber Products Identification Act](#)
- [The Wool Products Labeling Act](#)
- [The Fur Products Labeling Act](#)
- State Law for Labeling Filled Articles: <https://americanlawlabel.com/law-label-learning-center/>
- The Amended Care Labeling Rule: <http://www.ftc.gov/os/statutes/textile/carelbl.shtm>
- [The Consumer Product Safety Improvement Act of 2008](#)
- California Proposition 65: <http://www.oehha.ca.gov/prop65/prop65>

Because quality cannot be inspected into products, it is the goal of the HSN Quality Assurance program to collaborate with our vendors as early as practical in order to prevent defects. This partnership extends to design and materials selection before the product is made, and includes all points in the manufacturing, packaging, shipping and post-delivery processes. Therefore, it is within the purview of the HSN Quality Assurance program to maintain a close, direct partnership with our vendors and their manufacturing facilities in order to support continuous improvement efforts and uphold the most efficient and effective manufacturing practices. It may be necessary at any time to visit a vendor's facility to ensure we mitigate risks to delivering 100% acceptable product.

Our vendors are expected to support our efforts throughout the supply chain to provide our customers with an unsurpassed purchase experience. Our vendors are also expected to maintain world-class quality and delivery. Such expectations cannot be met unless our vendors work with us and maintain a comprehensive quality program of their own. All shipments must be inspected for compliance before HSN ever sees the product.

HSN QA prepared this document to help you through the process of submitting products to HSN. This document contains general information. It should not be considered a definitive source of regulatory guidance

SUBMISSION REQUIREMENTS

How to Submit Your Samples to QA

A complete sample submission for textiles will consist of the following:

Complete product specification sheet submitted on the HSN Vendor Portal

- Include all component and product details
- Include all proposed care instructions, features and benefits, objective and performance claims, and all talking points for the on-air presentation
- Include all product measurements
- Include all claim substantiation, lab testing, label copy, inserts and instructions
- Prior to sending a sample to HSN QA print and affix the sample label:
 - Print the sample label found in the product specification sheet
 - Affix label to the sample so that the item can be identified upon receipt

For guidance on how to create a specification sheet on the vendor portal, please view the Product specification sheet tutorials: <https://view.hsn.net/Documents/Documents.aspx?dt=SpecSheetTutorials>. A printed guide is also available https://view.hsn.net/WebDocuments/documents/13_HowtoCreateaSpecSheet.pdf.

NOTE: The product specification sheets MUST be completed and submitted prior to sending samples to QA; samples without specification sheets will not be reviewed.

TOP (Top of Production) sample:

- Representative of the final product from the production lot is required
- Queen size is required for sized bedding textiles.(for moderate and high risk vendors only)
- Made using actual fabric and trims.
- Include all internal and external packaging (i.e. shipper carton, polybags, void fill cushioning).
- Include all product components with intended labeling.
- Include all inserts, instruction and any other material that is to go to the customer.

Shipment of QA Samples

- Ship all QA samples to HSN QA as outlined in the Product Samples section of the HSN Supply Chain Requirements Manual. https://view.hsn.net/WebDocuments/documents/03_Product%20Samples.pdf

SUBMISSION REQUIREMENTS CONTINUED

After thoroughly reviewing the QA samples and specification sheet documentation, the HSN QA Product Evaluator will issue an evaluation report to the vendor via the vendor portal. The vendor then reviews and responds to the issues noted in the report and provides the information/materials requested.

EVALUATION DISPOSITION

Evaluation Disposition

Products submitted to HSN QA will be reviewed by the QA evaluator and assigned one of the following evaluation statuses:

Received: A physical product sample has been received, but the product specification sheet has not been submitted by the vendor and/or approved by the HSN Merchandising team. An evaluation in Received status requires submission and approval of the product specification sheet prior to initiation of the formal QA evaluation process.

Pending: QA has received a sample and a Merchandising-approved spec sheet. The evaluation is in process and/or there are open issues that require the vendor to provide information, samples or corrective action.

Approved: QA has evaluated the sample and found that it meets HSN standards. The product is approved to ship.

Rejected: QA has evaluated the sample and found that it does NOT meet HSN standards, and that the vendor was unable to provide appropriate corrective action.

MINIMUM PRODUCT MEASUREMENTS – BEDDING TEXTILES

The MINIMUM acceptable measurements for each product type are shown in the following tables. The HSN Merchandising team may request measurements above these minimum requirements for your product, in these cases, the measures agreed upon during these discussions will supersede the published minimums.

Comforters

HSN employs variable sizing for comforters based upon the product tier designated by the HSN Merchandising team for the item. The tiers apply to both down and down-alternative/poly fill comforters.

PLEASE CHECK WITH YOUR HSN MERCHANDISING TEAM TO CONFIRM WHICH TIER APPLIES TO YOUR PRODUCT.

Size	BASIC COMFORTER Width x Length (inches) Tolerance $\pm 2''$	PREMIUM COMFORTER Width x Length (inches) Tolerance $\pm 2''$	LUXURY COMFORTER Width x Length (inches) Tolerance $\pm 2''$
Twin	66 x 86	68 x 88	68 x 90
Full	78 x 86	82 x 88	86 x 90
Full/Queen	86 x 92	NA	NA
Queen	88 x 92	90 x 92	92 x 96
King	102 x 92	106 x 92	110 x 96
King/Cal King	102 x 96	102 x 96	106 x 100

Mattresses, *Mattress Toppers & Pads

Size	MATTRESS Width x Length (inches) Tolerance $\pm 1''$	MATTRESS TOPPER Width x Length (inches) Tolerance $\pm 1''$	MATTRESS PAD Width x Length (inches) Tolerance $\pm 1''$ (W x L) $\pm 1/2''$ (Pocket)
Twin	39 x 75	39 x 75	39 x 75 x 14
Full	54 x 75	54 x 75	54 x 75 x 16
Queen	60 x 80	60 x 80	60 x 80 x 16
King	76 x 80	76 x 80	76 x 80 x 16
Cal King	72 x 84	72 x 84	72 x 84 x 16

*Feather beds are considered equivalent to mattress toppers and subject to the required minimums for mattress toppers.

MINIMUM PRODUCT MEASUREMENTS – BEDDING TEXTILES CONTINUED

The MINIMUM acceptable measurements for each product type are shown in the following tables.

The HSN Merchandising team may request measurements above these minimum requirements for your product, in these cases, the measures agreed upon during these discussions will supersede the published minimums.

Pillow Inserts, Protectors, Cases and Shams

Size	PILLOW INSERT Width x Length (inches) Tolerance $\pm 1''$	PILLOW PROTECTOR Width x Length (inches) Tolerance $\pm 1/2''$	PILLOW CASE Width x Length (inches) Tolerance $\pm 1''$ (W x L)	PILLOW SHAM Width x Length (inches) Tolerance $\pm 1''$ (W x L)
Standard	20 x 26	20 x 26	21 x 27 + 4 hem	20 x 26 (interior)
Jumbo	20 x 28	20 x 28	NA	NA
Queen	20 x 30	20 x 30	21 x 32 + 4 hem	NA
King	20 x 36	20 x 36	21 x 37 + 4 hem	20 x 36 (interior)
Euro	26 x 26	26 x 26	NA	25 x 25 (interior)

Sheets

Size	FLAT SHEET Width x Length (inches) Tolerance $\pm 2''$	FITTED SHEET Width x Length x Pocket Depth (inches) Tolerance $\pm 1''$ (W x L) $\pm 1/2''$ (Pocket)
Twin	66 x 96	39 x 75 x 15
Full	81 x 96	54 x 75 x 15
Queen	90 x 102	60 x 80 x 15
King	108 x 102	78 x 80 x 15
Cal King	102 x 108	72 x 84 x 15

MINIMUM PRODUCT MEASUREMENTS – BEDDING TEXTILES CONTINUED

The MINIMUM acceptable measurements for each product type are shown in the following tables.

The HSN Merchandising team may request measurements above these minimum requirements for your product, in these cases, the measures agreed upon during these discussions will supersede the published minimums.

Top of Bed Textiles

Size	BEDSPREAD Width x Length (inches) Tolerance $\pm 2''$	BEDSKIRT Width x Length (inches) Tolerance $\pm 1''$	BLANKET Width x Length (inches) Tolerance $\pm 2''$
Twin	80 x 110 (21" min. drop)	39 x 75 + drop	66 x 90
Full	96 x 110 (21" min. drop)	54 x 75 + drop	NA
Full/Queen	NA	NA	90 x 90
Queen	102 x 118 (21" min. drop)	60 x 80 + drop	NA
King	120 x 118 (21" min. drop)	78 x 80 + drop	NA
King/Cal King	NA	NA	108 x 90
Cal King	114 x 124 (21" min. drop)	72 x 84 + drop	NA

Size	COVERLET Width x Length (inches) Tolerance $\pm 2''$	DUVET Width x Length (inches) Tolerance $\pm 2''$	QUILT Width x Length (inches) Tolerance $\pm 2''$
Twin	68 x 86	68 x 88	68 x 86
Full	NA	NA	NA
Full/Queen	90 x 94	90 x 90	88 x 90
Queen	NA	NA	NA
King	108 x 94	106 x 92	106 x 90
Cal King	104 x 98	NA	102 x 94

Size	THROW Width x Length (inches) Tolerance $\pm 2''$
Standard	50 x 60
Oversized	55 x 75

MINIMUM PRODUCT MEASUREMENTS – HOME TEXTILES

The MINIMUM acceptable measurements for each product type are shown in the following tables.

The HSN Merchandising team may request measurements above these minimum requirements for your product, in these cases, the measures agreed upon during these discussions will supersede the published minimums.

Bath Textiles

Product	BASIC Width x Length (inches) Tolerance ± 1 "	PREMIUM Width x Length (inches) Tolerance ± 1 "
Bath Mat	20 x 30	20 x 30
Bath Sheet	35 x 60	35 x 60
Bath Towel	27 x 52	30 x 54
Hand Towel	15 x 24	16 x 26
Wash Cloth	12 x 12	12 x 12
Beach Towel	34 x 63	40 x 65
Shower Curtain	72 x 72	72 x 72

Kitchen Textiles

Product	Width x Length (inches) Tolerance ± 1 "
Dish Cloth	19 x 29
Cocktail Napkin	6 x 6
Dinner Napkin	19 x 19
Place Mat	12 x 18
Runner	13 x 72
Round Table Cloth	60
Square Table Cloth	52 x 52
Rectangle Table Cloth	52 x 70
Apron (Full)	24 x 30
Pot Holder (Square)	8 x 8

Window Textiles

Product	Width x Length (inches) Tolerance ± 1 "
Window Panel	42 x 84
Valance	80 x 18
Tie Back	3 x 24

CARE AND PERFORMANCE TESTING

Lab Testing (Fabric/Garment Care & Performance Testing)

Vendor are required to submit all samples to an approved 3rd party testing laboratory. Testing results must be uploaded to the Documents section of the Product Specifications Sheet within the HSN Vendor Portal. High Risk and Proprietary Vendors must use either Intertek or UL Laboratories for testing. Low and Moderate Risk Vendors may chose to test with any certified 3rd party lab.

Test request forms for each of the approved testing labs can be found within the For Your Information section of the HSN Vendor Portal <https://view.hsn.net/Documents/documents.aspx>.

Click below link to access the QRG Global Home Textiles Protocols:

<https://view.hsn.net/Documents/Documents.aspx> (Protocols are in the QRG QA Testing Forms & Protocols Section by Product Category)

MINIMUM CONSTRUCTION STANDARDS

Domestic/textile products submitted to HSN QA will be reviewed by QA according to the product construction guidelines listed below:

Binding/Interlining

- Must have compatible shrinkage to shell fabric
- Fusible interlinings must not have bubbles, especially after dry cleaning

Buttons & Buttonholes

- Buttonholes must be lock stitched at end to avoid raveling
- Buttons must have lock stitch to avoid pulling thread and removing button
- Buttons must pass care label instructions and must not crack, chip, discolor, rust or melt
- Buttonhole must be wide enough to not pull away from edge of fabric

Composition Requirement

- Single fiber must be 100% – no foreign fiber
- Multi-fiber must be + 3.0% of stated fiber content

Fabric Construction

- First-quality fabrics must be used – no seconds
- The lot must be cut from only one shade of fabric; matching pieces must all be the same shade. Minimum shade rating of 4.0 as per AATCC Gray Scale.

Fabric Properties

- Thread count, yarn ply, fabric weight, yarn size and structure must be as per buyer specifications.

Hems & Edge Finishing

- Must be even and secure with no raw edges

Needle Cutting

- Must have correct needle size and type for fabric to prevent cuts

MINIMUM CONSTRUCTION STANDARDS CONTINUED

Domestic/textile products submitted to HSN QA will be reviewed by QA according to the product construction guidelines listed below (continued):

Seams

- Must be finished, secured and free from puckering
- 11 (+/- 1) stitches per inch on woven and knit
- 6 to 7 stitches per inch on leather and vinyl
- Serge/mock safety stitch on elastic (6 stitches per inch)
- All seams must be finished; raw edges are not acceptable
- Seams must be back tacked unless crossed by another seam
- On sheer fabrics, French, mock French or felled seams may be used

Snaps, Rivets, Zippers & Trims

- Must not have corrosion present on metal/metallic components
- Must pass care label instructions and not crack, chip, discolor, rust or melt
- Must be securely fastened, reinforced and colorfast

Stitching

- Thread must be colorfast; no broken top stitches and no open seams

Stress Points

- Must be back tacked or reinforced as necessary

Threads

- Monofilament thread is not acceptable unless specified in writing by the HSN buyer
- Thread must match unless specified as “contrast”

MINIMUM CONSTRUCTION STANDARDS CONTINUED

Domestic/textile products submitted to HSN QA will be reviewed by QA according to the product construction guidelines listed below (continued):

General Appearance

- Stains, dirt, oil
- Raw/unfinished edges
- Visible surface irregularities that are not inherent to the product
- Irregularities in coloration/pigmentation that are not inherent to the product
- Chipping, discoloration or rusting of hardware
- Fraying or raveling of buttonholes, trims or hems
- Deterioration of buttons
- Objectionable frosting, pilling or snagging
- Pile loss, inconsistent pile height or bare spots
- Poor sewing (open seams, run-offs, puckering, drop needle or broken/skipped stitches)
- Deterioration of elasticized areas
- Twisting of seams
- Migration or opening in filling material
- Misaligned borders or prints
- Poor registration of borders or prints

PRODUCT LABELING

Domestic/textile products must be properly labeled to ensure compliance with applicable state and federal regulations.

Products must conform to quality requirements as well as the following general labeling guidelines:

Care Instructions

- Care instructions must conform to FTC care labeling regulations
- Font size must be legible
- Care instructions must be consistent with purchase orders, quality assurance reports and other hang tags
- All trim and hardware must be able to withstand selected care method

California Regulations

- State of California regulations from Bureau of Weights and Measures apply to all soft home accessory products

Company Name or Registered Identification Number (RN)

- Must conform to FTC rules

Country Of Origin

- Must be present on labeling and compliant with US CBP and FTC regulations

Federal Trade Commission Textile Fiber and Wool Products Identification Acts

- All textile products must conform to regulations in these acts

Fiber Content

- Wording of fibers cannot be abbreviated
- Total fiber content must add up to 100% and be listed in descending order of predominance
- Only generic fiber name is acceptable (trademarked fiber names are not acceptable)
- Must conform to FTC rulings on labeling
- Fiber content must be consistent with purchase orders, quality assurance reports and other hang tags

PRODUCT LABELING CONTINUED

Domestic/textile products must be properly labeled to ensure compliance with applicable state and federal regulations.

Products must conform to quality requirements as well as the following general labeling guidelines (continued):

Label Placement

- Labels must remain legible and securely attached through the laundering cycle and for the life of the item
- Labels should be placed as noted below unless specifically approved in advance by HSN

QA Bedding textiles

- Side seam lengthwise – flat sheets, pillowcases, decorative pillows
- Side seam widthwise - comforters, toppers, bed pillows
- Corner seam – fitted sheets

Kitchen textiles

- Back side, top left, set in the seam of the double rolled hem – towels, washcloths
- Side seam – tablecloths, napkins

Bath textiles

- Back side, top left, set in the seam of the double rolled hem – towels, washcloths
- Back side, top left, set in the bottom of the eyelet seam– shower curtain

Window textiles

- Back side of the window treatment, top left, set inside the bottom of the rod pocket or tab top seam –curtain panels, valances

Fiber Content must be labeled on textile products to comply with FTC guidelines. **RN Numbers** must be included on all items, either attached or sewn.

Care Instructions must be sewn into the products in the same manner as the FTC care regulations for wearing apparel. The HSN QA review process will confirm that care instructions are appropriately marked for all products. It is the responsibility of the vendor/manufacturer to ensure that an independent laboratory has tested the products to meet the claimed care instructions.

PRODUCT LABELING CONTINUED

***Law Tag** is not an FTC requirement, but state law requires it. It must appear on the product to identify any content that is hidden from view from the consumer.

Country of Origin is an FTC requirement. It must appear on all products.

Size is required on the labeling of all products. Items requiring a Law Tag should have the size included on the actual law tag. Items that do not require a law tag must have the size either affixed to the product or adhered to the packaging.

All other relevant FTC labeling regulations must be followed:

Labeling Examples:

100% COTTON

**MADE IN USA OF
IMPORTED MATERIALS**

**MACHINE WASH COLD LINE
DRY**

RN # 12345

Use only FTC GENERIC fiber names, and list them in order of predominance of percent. Sectional disclosure is required on multi-component items (shell, insulation, etc. see example below.)

Country of origin of the piece goods' manufacturer

May be on back of logo label (if it can be read by the consumer at point of purchase) in English or may show ASTM care symbols (these symbols may be used if they fulfill necessary requirements.)

**SHELL: 55% COTTON
35% POLYESTER
10% RAYON**

FILL: 100% POLYESTER

**BACKING: 60% COTTON
40% POLYESTER**

MADE IN CHINA

**SPOT CLEAN ONLY
RN #12345**

PRODUCT LABELING CONTINUED

State Law labels for Filled Articles (if applicable)

- The State Law Label is required for all of HSN's stuffed or insulated orders to comply with appropriate Bedding and Upholstered Articles Regulations
- This label must be sewn in and stacked with other appropriate labels
- Label must be a durable, non-woven white material with black print
- Each manufacturer is responsible for having its own registration number printed on the label
- Down lot numbers must be stamped on this label
- This label may be used for content, country of origin and size as specified on the format of the State Law Tag
- Manufacturer must contact every state that has an active tagging law covering their product and ask to be licensed with them using manufacturer's existing number
- For a list of these states, order the current "Tagging Law Manual" from ISPA (International Sleep Products Association) in Alexandria, VA. at (703) 683-8371

Example

The diagram shows a rectangular label with various fields and annotations. The label is oriented vertically. At the top, there is a line for stitching. Below this, the text reads: "UNDER PENALTY OF LAW THIS TAG NOT TO BE REMOVED EXCEPT BY THE CONSUMER". This is followed by a line for "ALL NEW MATERIAL CONSISTING OF". Below this is a line for "REG. NO OR LIC. NO.". Then, a statement: "Certification is made by the manufacturer that the materials in this article are described in accordance with law." This is followed by a line for "Made By" and "or Manufactured By, Sold By". Below this is a line for "COMPANY NAME" and "Address City, State, Zip". Then, a line for "Date of Delivery". Below this is a line for "Style: Fin. Size: Wt:". Then, a line for "FEDERAL REQUIREMENT: RN NO. Filling: Cover:". Below this is a line for "MADE IN USA". Then, a line for "DISTRIBUTOR NAME". Below this is a line for "Excluding Ornamentation, This Down Product Contains A Percentage Of Feathers Not Exceeding Amount Allowed By Law". At the bottom, there is a barcode with the number "0 12345 67890 5" below it. Annotations point to various parts of the label: "Space for stitching" points to the top line; "Statement always present." points to the "UNDER PENALTY OF LAW" section; "Space for description of filling materials stated as a percentage by weight, listed by the greatest percentage first." points to the "ALL NEW MATERIAL CONSISTING OF" line; "P preceded by two letter abbreviation of state of which Reg. No. or Lic. No. was obtained from." points to the "REG. NO OR LIC. NO." line; "Statement always present" points to the "Certification is made by the manufacturer" statement; "or Manufactured By, Sold By" points to the "Made By" line; "In states requiring this information, optional in all other states." points to the "COMPANY NAME" and "Address" lines; "In states requiring this information." points to the "Date of Delivery" line; "In states requiring this information for specified products." points to the "Style: Fin. Size: Wt:" line; "Optional in all states." points to the barcode.

Space for stitching

Statement always present.

Space for description of filling materials stated as a percentage by weight, listed by the greatest percentage first.

P preceded by two letter abbreviation of state of which Reg. No. or Lic. No. was obtained from.

Statement always present

or Manufactured By, Sold By

In states requiring this information, optional in all other states.

In states requiring this information.

In states requiring this information for specified products.

Optional in all states.

UNDER PENALTY OF LAW

PRODUCT LABELING CONTINUED

Flammability Caution Label (on all small rugs)

- Flammability caution information can be placed on a loop label, a single ply of a durable non-woven white material with black print, or on an existing information label.
- Labels on products that do not meet the flammability requirements must be labeled as follows:
FLAMMABLE (FAILS U.S. DEPARTMENT OF COMMERCE STANDARD FF 2-70): SHOULD NOT BE USED NEAR SOURCES OF IGNITION
- Products treated with flame retardants or made from fibers treated with flame retardants must be labeled with the letter "T" pursuant to conditions of the CPSC.
- The "T" shall be legibly and conspicuously placed on the label and/or invoice.

Mattresses, Mattress/Box Spring Sets And Futons

- All mattresses and mattress/box spring sets must be certified by the manufacturer to comply with Federal Standards 16 CFR 1632 and 1633 and be labeled accordingly.
